In most of North America, March is a time of transition, "coming in like a lion and going out like a lamb" the saying goes, recognizing that the month straddles winter and spring. In St. George, Utah, the weather is pleasant and the scenery is spectacular. In [Napa Valley](#), colorful signs of spring show up during the month, and the same goes for [Washington, D.C.](#) and [Charleston](#), where flowers announce the changing season. In Orlando, visitors enjoy mild temperatures ahead of summer's heat. Winter sports fans can still find snow in [Colorado's ski destinations](#), while warm weather awaits in Kauai, on Turks and Caicos beaches, and in Costa Rica.
